been obtained from families and others in the Riverville area but the options have not been exercised by the corpora-

The Amherst County Board of Supervisors has approved a $80,000 secondary road improvement project for "Rocky Creek Road", which is Route 657 off Route 60 to the plant site. Officials said that Route 657 will be used during the construction period of the plant.

It is predicted that as many as 1,000 construction workers will be employed on the $48.6 project.

The new manufacturing facility will be a hardwood, neutral sulfite semi-chemical pulp and paper mill which will manufacture corrugated medium for the container industry. Initial rated capacity of the mill will be 500 tons a day or 175,000 tons per year.

Chamber and county spokesmen believe that the plant will be a boon to the pulpwood producers in the four county area of Amherst, Nelson, Buckingham and Appomattox.

Actual original employment at the plant would be only 150 persons but eventual payroll of the facilities would reach 500 it was reported.

Abbitt was senior member of the Virginia delegation when he retired.

Byrd, speaking at the 91st annual meeting of the Petersburg Chamber of Commerce, said "the facts show, I think, that President Nixon knew what he was doing in Vietnam. The critics won't be quite so vocal now that there has been a cease-fire."

Godwin spoke briefly at the dinner but offered no comment on frequently published reports of his intention to seek another term as Virginia governor.

"I don't feel like running a race, a physical race tonight, that is," he said.

It was Godwin's first public appearance since his recent release from a Richmond hospital after undergoing surgery.
